**Comprehensive Water Quality Management Planning Kick-Off**

**To:** Cities, Counties, Soil & Water Conservation Districts, and other stakeholders in the Middle Iowa Watershed

**From:** Middle Iowa Watershed Management Authority

**Subject:** Middle Iowa Watershed Management Authority Meeting and Comprehensive Watershed Quality Management Planning Kick-Off event for July 11<sup>th</sup>, 2024

**OVERVIEW:** In 2010, Iowa lawmakers passed legislation authorizing the creation of Watershed Management Authorities (Iowa Administrative Code Chapter 466B Subchapter II). A Watershed Management Authority (WMA) is a mechanism for cities, counties, Soil and Water Conservation Districts (SWCDs) and stakeholders to cooperatively engage in planning and management at the watershed scale. A WMA was formed for the Middle Iowa Watershed, and is comprised of member organizations located in Benton, Iowa, Johnson, Marshall, Poweshiek, and Tama counties.

In December of 2023, the MIWMA was awarded a Comprehensive Water Quality Management Planning grant from the Iowa Department of Natural Resources. The MIWMA retained a consultant to provide planning services for development of this plan. The commencement of the planning process will be marked by this kick-off meeting and is anticipated to be completed by December of 2025.
